### **REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance: the prior art of record does not disclose or fairly suggest a golf practice and exercise device for use with a golf club, comprising a frame member having a base portion for supporting the device on a floor or ground, said frame member extending upwardly from the base member and having an outwardly extending mounting arm, and an object swingably suspended from said mounting arm by with at least a portion of said object adjacent the floor or ground in position to be struck by a golf clubhead during a normal swing of a golf club, said object having a golf clubhead impact surface of a size at least that of the corresponding surface of a softball to provide a large target so that the golfer can swing a golf club freely without concentration on striking the small target of a golf ball, said object being of a mass at least that of a softball to provide substantial resistance to the impact of a golf club to impose muscular strain on the golfer for muscle development but being limited in mass to allow the head of a golf club to swing the object sufficiently for the golf clubhead to ultimately pass under the object and allow the golfer to complete the follow-through of the golf swing, wherein said object is substantially the same as a teardrop-shaped punching bag. With respect to claim 21, the prior art does not disclose or fairly suggest a the object attached to a ring that is freely rotatably mounted on the arm. With respect to claim 22, the prior art does not disclose or fairly suggest the object being alternately attached so the base for restraining the object against movement for alternative use of the object at a stop of the golf club in an impact position.
